### SUMMARY

Motivated Software Developer skilled in React, JavaScript, TailwindCSS, Java, and Python. Experienced in integrating AI features using Gemini API and collaborating in Agile teams. Strong problem-solving and debugging abilities with a passion for learning new technologies.

### PROFESSIONAL SKILLS

Analytical Thinking      Communication  
Quick Learning          Agile Collaboration  
Debugging                Task Prioritization

### TECHNICAL SKILLS

Java, Python, JavaScript, React  
TailwindCSS, HTML/CSS, Firebase, Git/GitHub, Vercel  
SQL (MySQL, PostgreSQL), Gemini API, OOP, DSA

### EDUCATION

#### BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE AND ENGINEERING      OCT 2023 - Present

Sri Venkateshwaraa College of Engineering and Technology, Puducherry

Expected Graduation: 2027 / **CGPA: 8.2 / 10.0**

#### Higher Secondary Education (Class XII)

Aditya Vidhyashram Residential School, Puducherry

Computer Science Top Scorer

Year of Passing: 2023 / **Percentage: 73%**

JAN 2022 -AUG 2023

### EXPERIENCE

#### Vice President – DeScience Open Source Club

SEP 2023 - Present

Organized coding events, workshops, and peer-learning sessions.

Mentored juniors in web development and version control.

Led planning and coordination for technical club activities.

Learned Agile principles, which strengthened my technical workflow and project coordination skills.

### PROJECTS

#### CarbonKanakku – ESG + Carbon Footprint Tracking ML App

Developed an AI-powered ESG platform to track emissions, carbon footprint, and sustainability metrics for textile industries.

Integrated Gemini API for automated insights and report generation. Built real-time dashboards and data workflows using React, TailwindCSS, and Firebase.
